Upon such termination, the Trust or any Series or Class thereof shall carry on no business except for the purpose of winding up its affairs, the Trustees shall retain all powers given to them under this Declaration of Trust with respect to the Trust, such Series or Class until the Trust or such Series or Class (as applicable) shall have been wound up, and, after paying or adequately providing for the payment of all liabilities, the Trustees shall distribute the remaining Trust property or Trust property allocated or belonging to such Series or Class to the Participants in the Trust or of the Series or Class (as applicable) according to their respective rights.

Section 4.6. A majority of the Trustees may: (a) select or direct the organization of a corporation, association, trust, or other organization to take over the Trust property and carry on the affairs of the Trust; (b) sell, convey, and transfer the Trust property to any such organization in exchange for shares, securities, or beneficial interests therein, and the assumption by such transferee of the liabilities of the Trust; and (c) thereupon terminate the Trust and deliver such shares, securities, or beneficial interest proportionately among the Participants in redemption of their Units.

Section 4.7. No Trustee shall be liable for having acted in good faith in any transaction connected with the Trust or the administration of the Trust. The Trustees shall be held harmless in acting upon any instrument, certificate, or paper that they believe to be genuine and to be signed or presented by the proper person or persons. The Trustees shall have no duty to make any investigation or inquiry concerning any statement contained in any

such writing. No recourse shall be had at any time upon any note, bond, contract, instrument, certificate, undertaking, obligation, covenant, or agreement (whether oral or written) made, issued, or executed by the Trustees in pursuance of the terms of this Declaration of Trust, or by any officer or agent of the Trustees, against the Trustees or such officer or agent individually by legal or equitable proceeding, except only to compel the proper application or distribution of the Trust property, *provided that* no Trustee shall be excused from liability for willful malfeasance, bad faith, gross negligence or reckless disregard of the duties involved in the conduct of his office (“disabling conduct”). The Trustees shall not be liable for the proper application of any part of the Trust property, *provided that* distributions are made in accordance with directions provided in this Declaration of Trust. Nothing contained in this Declaration of Trust shall be construed as giving power to the Trustees to contract any debt or to do anything that will bind any Participant personally. Any person, firm, corporation, or association dealing with the Trustees shall be limited to satisfying any obligation, liability, or covenant with the Trustees only out of the Trust property, and not out of the personal property of any Participant.

Section 4.8. The Trust shall indemnify each Trustee and officer and each former Trustee and officer of the Trust against fines, judgments, amounts paid in settlement and expenses, including attorneys’ fees, actually and reasonably incurred in connection with any pending or threatened criminal action, civil suit or administrative or investigative proceeding (any “matter”) against him or her arising by reason of the fact that he or she is or was a trustee or officer of the Trust, or by reason of actions taken by him or her as such Trustee or officer, if it is found that his or her liability does not result from disabling conduct. The finding that liability does not arise from disabling conduct may be made in a final decision by a court or other body before which the matter giving rise to the expense or liability was brought or, in the absence of such a decision, by (a) the vote of a majority of a quorum of Trustees who are neither “interested persons” of the Trust as defined in Section 2(a)(19) of the Investment Company Act nor parties to such matter (“disinterested non-party Trustees”) or (b) an independent legal counsel in a written opinion. Expenses of the kind eligible for indemnification may be paid as incurred by a trustee or officer in advance of final disposition of a matter upon receipt of an undertaking by the recipient to repay such amount unless it is ultimately determined that he is entitled to indemnification hereunder if (a) the indemnitee provides security for his or her undertaking, (b) the Trust is insured for losses arising by reason of any lawful advances or (c) a majority of a quorum of disinterested non-party Trustees or independent legal counsel (in a written opinion) determines, based on a review of readily available facts, that there is reason to believe that the indemnitee ultimately will be found entitled to indemnification. This Section is intended to provide indemnification to Trustees and officers to the full extent permitted by law and shall be construed and enforced to that extent.

Section 4.9. The Trustees and any employee or agent of the Trustees (except a bank or trust company) who handles funds or other property of the Trust shall be bonded for the faithful discharge of his or her duties in such amount and as otherwise required by applicable law. The expenses of such bond shall be paid by the Trust.

Section 4.10. No person dealing with the Trustees shall be bound to make any inquiry concerning the validity of any transaction purporting to be made by the Trustees, or be liable for the application of money or property paid, loaned, or delivered. Every note, bond, contract, instrument, certificate, or undertaking, and every other act or thing executed or done by any Trustee in connection with the Trust, shall be conclusively taken to have been executed or done only in his or her capacity as Trustee, and such Trustee shall not be personally liable thereon. Every such note, bond, contract, certificate or undertaking made or issued by the Trustees shall recite that it is executed or made by them not individually, but as Trustees, and that the obligations of any such instrument are not binding upon any of the Trustees individually, but bind only the Trust property, and may contain any further recital that they may deem appropriate, but the omission of such recital shall not operate to bind the Trustees individually.

Section 4.11. The Trustees shall be reimbursed from the Trust property for their expenses and disbursements, including expenses for clerks, transfer agents, office hire, and counsel fees, and for all losses and liabilities by them incurred in administering the Trust and for the payment of such expenses, disbursements, losses, and liabilities, the Trustees shall have a lien on the Trust property prior to any rights or interests of the Participants.

Section 4.12. This Declaration of Trust shall be construed, regulated, and administered under the laws of the District of Columbia and in the courts of the District of Columbia.

ARTICLE V

Units and Distributions

Section 5.1. (a) The beneficial interests of the Trust shall be divided into portions (“Units”) of one or more separate and distinct Series or Classes of Series as the Trustees shall, from time to time, create and establish. The number of authorized Units of each Series and Class thereof is unlimited. In lieu of issuing certificates to evidence ownership of such Units, the Trustees may establish a book-entry system whereby Units may be issued and redeemed by bookkeeping entry and without physical delivery of the securities. The Trustees shall have full power and authority in their sole discretion, and without obtaining any prior authorization or vote of the Participants (to the extent permitted by applicable law) (i) to create and establish (and to change in any manner) Units or any Series or Classes thereof with such preferences, voting powers, rights, and privileges as the Trustees may from time to time, determine; (ii) to divide or combine the Units or any Series or Classes thereof into a greater or lesser number; (iii) to classify or reclassify any issued Units into one or more Series or Classes of Units; (iv) to abolish any one or more Series or Classes of Units; (v) to reorganize or merge any Series or Class thereof into another Series or Class thereof; and (vi) to take such other action with respect to the Units or Series or Classes thereof as the Trustees may deem desirable; provided, however, that the Trustees may not amend a fundamental policy with respect to any Series or Class without the affirmative vote of Participants holding a majority of the Units of such Series or Class. The Trustees shall have the right to sell or exchange such additional Units without offering the same to the holders of the then-outstanding Units. All references to Units in this Declaration shall be deemed to include references to Units of any or all Series or Classes as the context may require.

(b) The establishment of any Series or Class thereof shall be effective upon the adoption of a resolution of the majority of the then Trustees setting forth such establishment and designation and the relative rights and preferences of the Units of such Series or Class, whether directly in such resolution or by reference to, or approval of, another document that sets forth such relative rights and preferences of the Units of such Series or Class including, without limitation, any registration statement of the Trust, or as otherwise provided in such resolution. At any time that there are no Units outstanding of any particular Series or Class previously established and designated, the Trustees may by a majority vote abolish such Series or Class and the establishment and designation thereof.

(c) Until such time as any Units of any Series or Class are issued, the Trustees may exercise all rights of the holders of such Series or Class and may take any actions required or permitted by law, the Declaration or Bylaws to be taken by the holders of such Series or Class.

Section 5.2. Only Labor Organizations, Eligible Pension Plans, and State Public Funds as defined in this section shall be eligible to own Units of the Trust or to hold Units in the Trust.

(a) A “Labor Organization” means:

(i) any organization of any kind, any agency, employee representation committee, group, association or plan in which employees participate directly or through affiliated organizations, and which exists for the purpose in whole or in part, of dealing directly or through affiliated organizations with employers concerning grievances, labor disputes, wages, rates of pay, hours or other terms or conditions of employment;

(ii) any employee benefit plan that benefits the members of such an organization; or

(iii) any other organization that is, in the discretion of the Board of Trustees, affiliated with or sponsored by such an organization.

(b) An “Eligible Pension Plan” includes:

(i) a pension plan (“Pension Plan”) constituting a qualified trust under Section 401(a) of the Internal Revenue Code of 1986, as amended (the “Code”) which has beneficiaries who are represented by a Labor Organization and the assets of which are managed without the direct intervention or control of the plan's beneficiaries;

(ii) a governmental plan ("Governmental Plan") within the meaning of section 414(d) of the Code which has beneficiaries who are represented by a Labor Organization and the assets of which are managed without the direct intervention or control of the plan's beneficiaries;

(iii) a master trust, including without limitation a collective investment trust, holding the assets of more than one Pension Plan or more than one Governmental Plan, where at least one of the plans with assets in such master trust has beneficiaries who are represented by a Labor Organization;

(iv) a pension or retirement program of a non-United States jurisdiction that is similar to a "governmental plan" as defined in Title 29, Section 1002(32) of the United States Code; or

(v) a non-United States employee benefit plan subject to regulation under applicable non-United States laws that are similar in purpose and intent to the Employee Retirement Income Security Act of 1974, as amended.

(c) State Public Funds mean:

(i) treasury or public funds held for investment and administered under the authority of a State (including a Commonwealth of the United States of America and the District of Columbia) or Municipal Treasurer (or similar position, including but not limited to, a State Controller) pursuant to state or local statutes governing the investment of public funds: or

(ii) any other public fund that is, in the discretion of the Board of Trustees, deemed to be similar in purpose and intent to an investment fund described in subparagraph (i) above.

Units will not be transferable or assignable. No holder of a Unit will have the authority to pledge its Unit as collateral for any loan.

Section 5.3. All consideration received by the Trust for the issue or sale of Units of a particular Series, together with all assets in which such consideration is invested or reinvested, all income, earnings, profits, and proceeds thereof, including any proceeds derived from the sale, exchange, or liquidation of such assets, and any funds or payments derived from any reinvestment of such proceeds in whatever form the same may be, shall be referred to as "assets belonging to" that Series. In addition, any assets, income, earnings, profits, and proceeds thereof, funds or payments that are not readily identifiable as belonging to any particular Series or Class, shall be allocated by the Trustees between and among one or more of the Series or Classes in such manner as they, in their sole discretion, deem fair and equitable. Each such allocation shall be conclusive and binding upon the Participants in all Series or Classes for all purposes, and shall be referred to as assets belonging to that Series or Class. The assets belonging to a particular Series shall be so recorded upon the books of the Trust or of its agent or agents and shall be held by the Trustees in trust for the benefit of the holders of Units of that Series.

The assets belonging to each particular Series shall be charged with the liabilities of that Series and all expenses, costs, charges, and reserves attributable to that Series, except that liabilities and expenses may, in the Trustee's discretion, be allocated solely to a particular Class and, in which case, shall be borne by that Class. Any general liabilities, expenses, costs, charges, or reserves of the Trust that are not readily identifiable as belonging to any particular Series or Class shall be allocated and charged by the Trustees between or among any one or more of the Series or Classes in such manner as the Trustees, in their sole discretion, deem fair and equitable and shall be referred to as "liabilities belonging to" that Series or Class. Each such allocation shall be conclusive and binding upon the Participants in all Series or Classes for all purposes. Any creditor of any Series may look only to the assets of that Series to satisfy such creditor's debt. No Participant or former Participant of any Series shall have a claim on or any right to any assets allocated or belonging to any other Series.

Section 5.4. (a) The term “Net Asset Value” of any Series or Class shall mean that amount by which the assets of the Series or Class exceed its liabilities, all as determined by or under the direction of the Trustees. Such Net Asset Value per Unit shall be determined separately for each Series or Class of Units and shall be determined on such days and at such times as the Trustees may determine (each, a “Valuation Date”).

(b) Notwithstanding subparagraph (a) of this Section 5.4, with respect to Series A, the net asset value shall be set at fair value as determined by the Trustees as of the close of business at the end of each calendar month (hereinafter “Series A Valuation Dates”). On the basis of the valuation made on the Series A Valuation Date, the beneficial interest of each Participant shall be adjusted to reflect the effect of income (collected or accrued), realized and unrealized gains and losses, expenses, and all other transactions with respect to such Series since the last preceding Series A Valuation Date

(c) In determining the value of the assets of any Series or Class of Units, the Trust will comply with the Investment Company Act, including Section 2(a)(41) thereof, and the rules, regulations, and interpretations thereof promulgated or issued by the Commission or insofar as permitted by any order of the Commission applicable to the Trust, as the same may be amended from time to time. The Trustees may delegate any of their powers and duties under this Section 5.4 with respect to valuations of assets and liabilities.

Section. 5.5. The Trustees shall as of each Valuation Date declare dividends of net income earned during each month. Such distributions will be payable after the end of each calendar quarter or such other dates as the Trustees may designate and will be made in cash, except that on written request of a Participant, distribution can be made in Units of the relevant Series or Class of the Trust valued as of the distribution date *provided that* such automatic reinvestment of income distribution does not subject the Trust to adverse consequences in the opinion of legal counsel for the Trust.

Section 5.6. Notwithstanding anything to the contrary contained in this Declaration of Trust or in any amendment thereto, no part of the Trust that equitably belongs to any Participant (other than such part as is required to pay the expenses of the Trust) shall be used for any purpose other than the exclusive benefit of the Participant.

Section 5.7. The Trustees shall render from time to time an accounting of the Trust’s transactions. A copy of such accounting will be made available to each Participant. No person other than a Participant may require an accounting or bring any action against the Trustees with respect to the Trust or because of any Trustee’s actions on behalf of the Trust.

Section 5.8. In case of the loss or destruction of any certificate, the Trustees may, under such terms as they deem expedient, issue a new certificate in place of the one so lost.

ARTICLE VI

Admissions to and Withdrawals from Trust

Section 6.1. (a) No admission to or withdrawal from the Trust shall be permitted except in Units. Units shall be issued and redeemed only as of a Valuation Date and may be issued and redeemed in fractions of a Unit. A request for issuance of Units must be received by the Trust before the Valuation Date as of which they are to be issued.

(b) With respect to Series A Units, a request for redemption of Units must be received by the Trust at least 15 days before the Series A Valuation Date as of which they are to be redeemed. No issue of Units will be made to any new Participant having a value of less than Fifty Thousand Dollars (\$50,000). Any request for redemption of Units made between Valuation Dates will be considered as having been made 15 days before the next ensuing Valuation Date and will be honored only as of such date.

Section 6.2. Payment in satisfaction of a duly tendered request for redemption shall be made as soon as practicable and in any event within seven days after the Valuation Date as of which redemption is effected.

Section 6.3. Upon the agreement of the redeeming Participant, the Trust may give securities and/or mortgages or other Trust assets in partial or full satisfaction of a duly tendered request for redemption. Such securities and/or mortgages will be treated for redemption purposes as being the cash equivalent of their value of the Valuation Date before the date on which redemption was requested.
